Policies and Fees Regarding Forensic Services

- Forensic services are not covered by health insurance providers. The costs of these services are incurred by the individual, referring attorney, or State agency.
- My general fee for forensic-related activities (i.e., records review, client interviewing and examination, test scoring and interpretation, report preparation, scientific literature review, research, telephone consultation, etc.) is \$200.00 per hour.
- Deposition and court testimony is billed at \$300.00 per hour for on-record testimony, billed in 30 minute increments. All other time (waiting at the courthouse, conferring, file review) is billed at \$200.00 per hour.
- Travel time is billed at \$160 per hour to account for revenue lost while in transit and unable to see patients in my office, billed in 30 minute increments. Local travel requiring less than 10 minutes is typically not billed.
- If pre-payment has not already been arranged, I expect my fees be paid within 21 days of receipt of my final invoice.
- I do not charge for cancellations given 7 days or more notice.
- For cancellations between 24 hours and 7 days, I charge 50% of my normal clinic fee (\$160/hour) for the total time reserved in my schedule, not including any prior recorded services in records review, trial preparation, or consultation performed prior to the cancellation.
- I charge 100% of my normal clinic fee (\$160/hour) for the total time reserved in my schedule fee when given less than 24 hour notice of cancellation, not including any prior recorded services in records review, trial preparation, or consultation performed prior to the cancellation.
